

Official Whitepaper

MATRIX TOKEN

Your Way to A New World of Digital Economy

LETTER FROM THE CEO

Dear Reader,

Thank you for taking the time to research Matrix Token and read our Whitepaper. This has been a culmination of hard work and dedication from all of the team here at Matrix Token and we would like to proudly share our Vision with you all.

As a medical doctor, I have worked long hours whilst managing expectations and multitasking in order to satisfy tight deadlines. Despite such experiences, nothing had prepared me for the challenge of growing Matrix Token from the ground up.

Our team is a unique one: a perfect blend of clinicians, engineers, developers and visionaries from the world over. We have different nationalities representing us, each bringing with them their own personal views and experiences of healthcare in their respective countries.

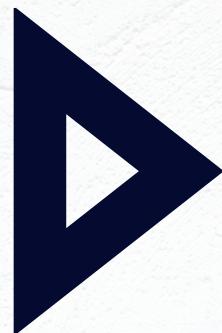

The Matrix Token team have the drive and commitment to improve healthcare for those who need it most – the patients.

We enact this mission by empowering patients with the tools to engage in a more comprehensive healthcare experience, such as paying low money transfer fees for a surgical procedure anywhere in the world and by doing so, we can improve people's lives.

It has been an amazing journey so far, and we are fortunate to have such strong support from the community who has helped to drive us onwards in developing this platform. We are only at the beginning and I truly believe the most exciting times lie ahead. Please continue to follow and support us here at Matrix Token, so that we can truly make a difference in the healthcare industry.

Dr.Jihad Ismail

CEO Of Matrix Group & CEO Of Matrix Token Project

WHAT'S THE MATRIX GROUP?

The Matrix Group is the company searching for and collaborating with doctors in all medical specialties. Also, the company organizes doctors' relationships with and the hospitals they work for to provide the best service to the patients coming for treatment to Turkey.

Simultaneously, the management's goal is to satisfy patients and meet all their requests while respecting patients' rights. However, Arab countries restrict the movement of money out of the country, forcing patients to pay very high commissions on the black market to get the funds needed to receive treatment abroad. As a result, Matrix's clients face additional financial burdens on their shoulders. So, the team decided to create a \$MTIX cryptocurrency to help patients to decrease their expenses.

WHAT IS OUR OBJECTIVES ?

Provide modern medical care to all patients in accordance with modern and contemporary medical approaches and in accordance with precise standards in performance and service based on trust in dealing with others.

- Offer Medical Assistance to Arab Community regardless of language barriers
- Mechanisms developed to favor the relationship between patients and Turkish Hospitals
- Promote Medical tourism in the Turkish and Arab Community
- It's A Token Issued By A Real Company Based In Turkey
- The company has adopted this Token as a tool to make payments for it's Medical and Treatment services
- Matrix Token is very convenient way to pay and transfer money Worldwide with a low commission
- Matrix Token Have been Accepted By A Major Companies as payment method

INTRODUCING THE MATRIX TOKEN PROJECT

MTIX is the BEP20 (BSC) token serving as the means of payment inside the Matrix Group for Medical Tourism. So, the team believes that the coin allows Matrix's clients to solve the problem of cross-border payments. Also, the company plans to include its digital currency on the most significant global trading platforms during the year 2022.

- Contact Address : 0x33b783a4833f7613ccb6569a9f39a261b311afbb
- Token Name : MATRIX
- Sympol : MTIX
- Launch date : 09/08/2021
- Total Supply : 1,500,000,000
- The rate of increase in the price to date : 9050%
- Price target after a year from launch date : \$1

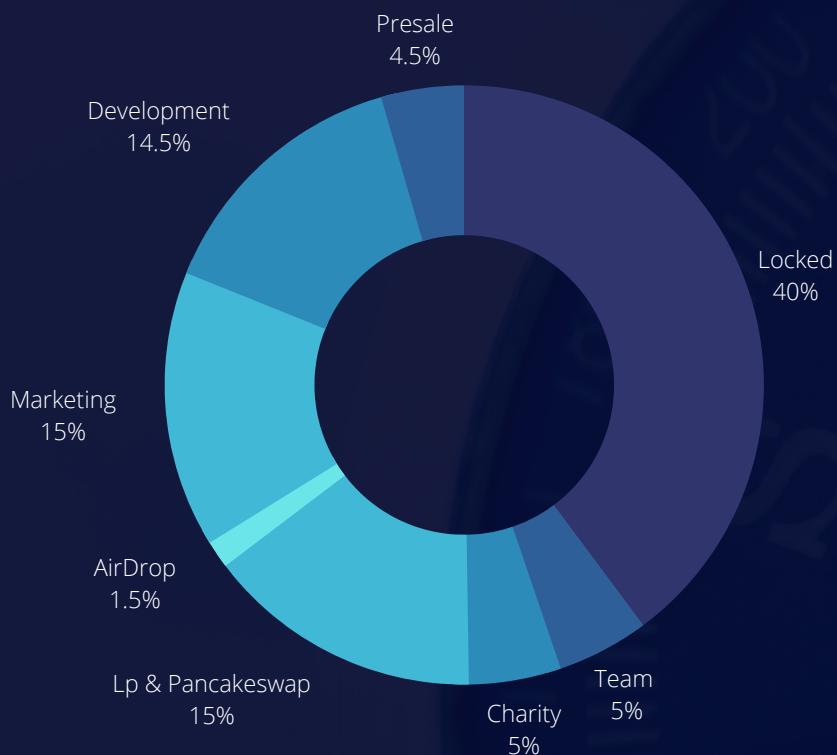

WHERE YOU CAN BUY MATRIX TOKEN

- Tokens for the Marketing : **225,000,000**
- Tokens for the Project Development : **217,500,000**
- Tokens for the Presale : **67,500,000**

CHARITABLE SUPPORT

Due to the fact that the parent company (Matrix Therapeutic Group) is in direct contact with patients through the nature of their work and due to their knowledge of the difficult financial situation of Arab patients in terms of fundraising for the treatment abroad.

The Board of Directors decided to allocate a closed charitable portfolio worth 300 million coins of the Matrix digital currency, intended for distribution to:

- Charitable patient care societies in the Arab and Islamic world
- Arab patients who send their reports or come to receive treatment at the parent company (Matrix Therapeutic Group) in Turkey

This is in support of associations in general and patients in particular, who the company knows are in dire need of those who lend a hand of humanitarian and material assistance, especially in light of their strong need to perform surgical operations. As soon as possible to avoid deterioration of your health.

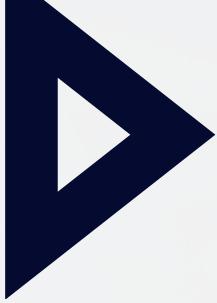

Therefore, the company calls and announces that its door is always open to contact charities and patients to disburse donations from
